

Miami-Dade Approved Drainable Blade Louver, 18 In Sq

ESD-635DE is a Florida Product Approved and Miami-Dade Approved stationary drainable blade extruded aluminum louver designed to protect air intake and exhaust openings in building exterior walls.

- Qualified for installation within concrete/masonry, steel stud, structural steel or wood framed building conditions
- Built in flattened, expanded birdscreen

Certifications

TAS 203 (Cyclic Wind Loading)
TAS 202 (Uniform Static Air Pressure)
TAS 201 (Large Missile Impact)
AMCA 500-L Air Performance and Water Penetration

Performance Characteristics

No Fan Curve Available.

Construction Features

Frame Material	Heavy gauge extruded 6063T5 aluminum
Frame Type	No Flange
Blade Material	Heavy gauge extruded aluminum
Certifications	TAS 203 (Cyclic Wind Loading)
Certifications	TAS 202 (Uniform Static Air Pressure)
Certifications	TAS 201 (Large Missile Impact)
Certifications	AMCA 500-L Air Performance and Water Penetration
