## Round Access Door, For 9 Inch Duct Diameters, Uninsulated

Access doors are designed for use in low to medium

pressure duct systems. They provide a durable,

practical, and inexpensive means of gaining access to damper components inside the ductwork.

•Gasket is permanently bonded to inside of door to

prevent leakage

•High impact plastic knobs designed to avoid stripping and allow tool-free operation

•Three layers of precision, stamped, hot-dipped galvanized steel

## Certifications

## Performance Characteristics

No Fan Curve Available.

## **Construction Features**

Frame Material	Galvanized Steel
Door Panel Construction	Galvanized Steel
Insulation	None
