
HVLS Keypad Control, Model 916906, For Use with Models DS-3, DS-6 and DC-5

The keypad control is a cost-effective option that offers complete control of an overhead fan system in a small, wall-mounted package. Sleek and easy to use, this control also provides full status monitoring capability and fault-logging, making this an excellent stand-alone control solution.

- IP40 Enclosure
- Modbus RTU Protocol
