

Backdraft damper, vertical mount, Model WD-320, 20 In Sq, Flange on Discharge

The WD-320 series dampers are designed to prevent reverse airflow in horizontal exhaust applications. The WD-320 features a pressure sensitive blade design that opens and remains open under low velocity conditions. The dampers are opened by air pressure differential and closed by gravity. Galvanized steel frame with flange on the discharge side.

- Width and height furnished approximately 0.125 in. under size

Certifications

Performance Characteristics

No Fan Curve Available.

Construction Features

Frame Material	Galvanized Steel
Frame Type	Flange on Discharge
Blade Material	Roll formed aluminum
